c. Weather Forecast: It is supposed to be a very good over the weekend. If change, we will react to that.

d. Grooming is done over the night (Thu-Sun)

e. For the classical races there will be forerunners before the race.

f. The track will be available for the training starting at 7.30 but will be closed ten minutes before the race.

g. For the classic race there will be **no technical** zone.

Fluor Testing (Mika Kulmala) The fluor testing area is located near the starting area, with clear signs indicating its location.

- Skis will be collected as the athletes finish the race and delivered to the fluor testing where an athlete can collect the skies. An athlete can use only one pair of skis.

General information from TD concerning fair and safe competitions.

- It is not allowed to ski free-style on the classical tracks so we can ensure the quality of the tracks for the race.

- Protests can only be made from the finals, not for example the heats. This is a new FIS rule.
